

# PLANTING CERTIFICATE

**This certificate is to confirm that**

## **LIME AND CHILI**

has planted 5,350 trees through Carbon Free Dining, an environmental initiative operated by The Green Earth Appeal, in partnership with Lime and Chili

**As a member of Carbon Free Dining, Lime and Chili is helping change the lives of communities across the developing world for generations to come**

### **Offset The Carbon Footprint**

Each tree we plant in the developing world effectively counterbalances up to 1 tonne of CO2 during its 40 year lifetime

### **Reverse Desertification**

Plant a tree on deforested land and the root systems draw water to the surface and regenerate the soil

### **Provide Food For Underprivileged Children**

By planting fruit trees in Africa, Asia or South America you help provide sustainable sources of food for the communities who plant them

### **Education In The Developing World**

Educate farmers and their communities about agroforestry, learning how to manage their farmland efficiently to ensure maximum sustainable yields year after year

The Green Earth Appeal wishes to thank Lime and Chili for their commitment to reduce CO2 levels in the atmosphere and for their support of poverty reduction and the reversal of deforestation and desertification

1st December 2020
